Testing Challenge #1 - web testing

What to do

Identify all the test required for the scenario below. Based on the data you input in the First Name field the tests will be evaluated.

What not to test for

Different browsers, extremely big requests, "nasty words", browser zoom in and out. Do not use automation tools. The server will cut access at over 30 requests per second per IP.

Specification

The user has to fill in the required data in order to get access, as a standard user in a forum.

Only the First Name field can be tested right now. The field has a max length of 30.

Confirmation message

Thank you Gheorghe, from Norway.

A message will be sent shortly to your e-mail address: me@whatyouknow.com with your password.
